Doctor of Philosophy Dissertation

Dissertation Title

Presented by

Dingxian Cao, B.S., M.S.

Approved by

Major Advisor: SuperMaster

Associate Advisor: SuperMaster2

Associate Advisor: SuperMaster3

University of Universe

2022

ACKNOWLEDGMENTS

I am grateful to the members of my committee for their patience and support in overcoming numerous obstacles I have been facing through my research.

Contents

Chapter 1

What is Earth

This chapter studies asymptotic theory for a possibly nonstationary panel AR(1) model

Chapter 2

What is Sun

In this chapter, we investigate the discontinuity problem between

Chapter 3

What is Galaxy

This chapter proposes a uniform inference method

Bibliography

Appendix A

Tables

asd

Appendix B

Proofs for Chapter 1

asd

Appendix C

Proofs for Chapter 2

By Slusky theory and the result of Lemma 2 and 3 above, we have

Appendix D

Proof for Chapter 3

asd
